

Position: Adult Clinical Rehabilitation Audiologist

At A Better Ear, we believe that when your passion and profession align, even the most demanding work can bring immense satisfaction and fulfilment. We're on the lookout for a fully accredited Audiologist who is dedicated to patient-centred care, loves professional development, and is ready to bring their uniqueness to our team.

This role is about more than just clinical practice. It's about understanding and uplifting the lives of those living with hearing loss. Success in this role means demonstrating sensitivity, compassion, and a strong dedication to patient-centred care and best practice. You'll be contributing to our mission of providing superior hearing rehabilitation in a supportive, flexible workplace that values the trust our community has in us.

Responsibilities:

- Conduct comprehensive hearing assessments.
- Develop and implement personalised adult rehabilitation plans.
- Regularly consult with patients and their families, providing supportive and constructive feedback.
- Stay current with the latest audiological research and technology to ensure the highest level of care.
- Advocate for better hearing health awareness in the community as part of our 'Healthy Hearing for a Healthy Life' initiative.

Qualifications:

- Masters in Audiology or equivalent.
- Current certification with Audiology Australia (AudA) or equivalent.
- A minimum 2yrs experience as an adult rehabilitation Audiologist.
- Excellent verbal and written communication skills.
- Excellent counselling skills.
- A strong interest in patient-centred care and best practice.
- A thirst for continuous learning and development.

If you're ready to be part of a team that celebrates individuality, best practice, and patient-centred care, we'd love to get to know you. Reach us at hello@abetterear.com.au.
