

Audiologist Vacancy for Independent Clinic on Sydney's Northern Beaches

Pittwater Hearing was established in 2015 by Audiologist Emma van Wanrooy, who wanted to create a workplace where Audiologists are encouraged to think outside the square, and do a broad range of Audiological work which wasn't focused solely on selling hearing aids.

From October, we will have a new 2 day per week position available working across our main clinic in Avalon and our Mona Vale visiting site. The role would be 80-90% adult assessment and rehab with a small amount of hearing assessments for children, including Auditory Processing Assessments.

At Pittwater Hearing we:

- Are part of our local community, and show our clients we really care about them in by going out of our way to provide the best service possible.
- Believe that the success of our business depends on excellence in Audiological care, not selling a lot of expensive hearing aids
- Tailor the rehab plan to each individual client's needs by providing a large range of services and devices, including Auditory Processing Assessments, Cochlear Implant Services, a large range of devices (including ALD's) from all the major manufacturers and ongoing Audiological care and rehabilitation.

At least 1 years experience with a CCP is essential. You must be eligible for membership of Audiology Australia.

Please send your expression of interest to Emma van Wanrooy Ph: 02 8919 0008
